EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification: page 4, line 4, "Fig. 1" has been changed to "Figs. 1A-1B".

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to show or to suggest, either alone or in combination, the steps of the claimed invention. Although the deposition of an oxynitride layer on a Ge-based material is disclosed in the prior art, the claimed two step process to deposit the oxynitride is not disclosed, including the nitrogen incorporation underneath the first surface of the Ge-based material, followed by the oxidation step, the concentration of the nitrogen and the thickness of the oxynitride to be between 0.5 nm and 5 nm of the EOT.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
